INSTRUCTIONS FOR USE

IMPACT EVO 3.0 – 0021608 | English version

1. Intended use

This product is protective equipment intended to protect the rider while riding a motorcycle. It is designed to help reduce the severity of impact injuries without restricting the ability to control the motorcycle.

The protector is personal protective equipment (PPE) that provides limited protection against mechanical impacts in the event of a fall.

THIS PROTECTOR HELPS REDUCE THE SEVERITY OF IMPACT INJURIES.

NO PROTECTOR CAN PROVIDE ABSOLUTE PROTECTION AGAINST ALL POSSIBLE IMPACTS!

NO PROTECTOR CAN GUARANTEE PROTECTION AGAINST ALL INJURIES CAUSED BY BODY TWISTING OR SUDDEN MOVEMENTS.

Always use the protector together with other appropriate protective equipment, especially a motorcycle helmet, chest/back protector, gloves and boots.

2. Materials and manufacturing

The synthetic and natural materials used, as well as the manufacturing processes, have been selected with regard to the requirements of European technical standards concerning product safety, ergonomics, comfort, durability and health safety.

3. Limitations of use

The protector is intended exclusively for motorcycle sports activities and must not be used for purposes other than those for which it was designed.

Changes in environmental conditions, especially temperature and humidity, may affect the protective properties of the protector. Any modification of the product, changes to its original design or improper use may reduce its protective function.

Use the protector only for its intended purpose and in accordance with these instructions. Do not modify the product in any way.

4. Inspection before use

Before each use, check that the protector is complete, undamaged and in good technical condition. Pay particular attention to:

• the condition of the protective elements and their attachments,
• seams and textile parts, fastening straps and the functioning of the closures.

If you find cracks, torn seams, damaged parts or closures that do not function or stay fastened, do not use the protector.

The protector provides the declared level of protection only if it is undamaged, retains its original properties and is correctly fitted. If it is damaged or you have doubts about its functionality, stop using it and replace it with a new one.

5. Laboratory testing and protection level

According to the manufacturer's information, the protector has been laboratory-tested in accordance with the requirements of the following standard:

• EN 1621-1:2012

The protection level is determined by the protector's ability to limit the force transmitted by an impact.

6. Choosing the correct size

Choose a size suitable for the user's build. The protector must fit the body correctly; it must not constrict or restrict movement while riding.

7. Fitting and adjustment

Before fitting, check that the product is complete and in good condition.

• The protectors are designed for the right and left leg. Position them correctly according to the markings.
• Place the protector over the knee so that the knee shell properly covers the knee and the protector extends over the shin and lower thigh.
• Secure the protector using the three adjustable straps. Tighten the straps so that the protector does not slip or rotate during movement, while ensuring that it does not restrict movement or impede blood circulation.
• After fastening, check that the protector fits correctly, stays in place and allows free movement of the knee.

The protector must always be correctly fitted and secured. Incorrect fitting or loose straps may reduce the level of protection provided.

8. Care, maintenance and storage

After use, allow the protector to dry in a well-ventilated place at room temperature. Do not dry it in a tumble dryer or near radiators or other heat sources.

If dirty, remove dirt with a dry cloth. Do not wash the protector under running water, do not use chemicals for cleaning and do not dye the product.

Store the protector in a dry, well-ventilated place. Protect it from direct sunlight, prolonged exposure to excessively high or low temperatures, and excessive loads or deformation.

Check the condition of the product regularly. If it is damaged or deformed, or if you have doubts about its protective properties, stop using it and replace it with a new one.

9. Disposal

At the end of its service life, dispose of the product in accordance with local waste management regulations.

Keep the packaging out of reach of children to avoid the risk of suffocation.

10. Declaration of conformity

The EU Declaration of Conformity in Czech is available at:
https://www.mefo.cz/acerbis-chranice-kolen-evo-30-6

The original Declaration of Conformity in English is also available on the manufacturer's website:
