BLAZAR BACK PROTECTOR – 0024526

1. Intended use

This product is protective equipment intended to protect the rider while riding a motorcycle. It is designed to help reduce the severity of impact-related injuries without restricting the ability to control the motorcycle.

The protector is personal protective equipment (PPE) that provides limited protection against mechanical impacts in the event of a fall.

THIS PROTECTOR HELPS REDUCE THE SEVERITY OF IMPACT-RELATED INJURIES.

NO PROTECTOR CAN PROVIDE ABSOLUTE PROTECTION AGAINST ALL POSSIBLE IMPACTS!

NO PROTECTOR CAN GUARANTEE PROTECTION AGAINST ALL INJURIES CAUSED BY BODY TWISTING OR SUDDEN MOVEMENTS.

Always use this protector together with other appropriate protective equipment, especially a motorcycle helmet, gloves and boots.

2. Materials and manufacture

The synthetic and natural materials used, as well as the manufacturing processes, were selected with regard to European technical standards concerning safety, ergonomics, comfort, durability and product health safety.

3. Limitations of use

The protector is intended exclusively for motorcycle sports activities and must not be used for purposes other than those for which it was designed.

Changes in environmental conditions, especially temperature and humidity, may affect the protector’s protective properties. Any modifications to the product, changes to its original design or improper use may reduce its protective function.

Use the protector only for its intended purpose and in accordance with these instructions. Do not modify the product.

4. Inspection before use

Before each use, check that the protector is complete, undamaged and in good technical condition. Pay particular attention to:

- the condition of the protective elements and their attachment
- seams and textile parts
- fastening straps and hook-and-loop fasteners
- sliding buckles
- proper functioning of the closures

If you find cracks, torn seams, damaged parts or hook-and-loop fasteners that no longer hold, do not use the protector.

The protector provides its declared level of protection only when undamaged, retaining its original properties and correctly fitted. If damaged or if you have doubts about its functionality, stop using it and replace it. Its level of protection is maintained only as long as it retains its original properties.

5. Laboratory testing and level of protection

According to the manufacturer, the protector has been laboratory tested in accordance with the requirements of the following standard:

- EN 1621-2:2014

The level of protection is determined by the protector’s ability to limit the transmission of impact force.

6. Selecting the correct size

Choose a size suitable for the user’s body. The protector must fit properly without constricting or restricting movement while riding.

The length of the back protector must correspond to the user’s height and ensure correct positioning of the protective elements.

7. Fitting and adjusting the protector

Before fitting, check that the product is complete and in good condition.

1. Put the protector on your back like a backpack, ensuring that the protective elements fit correctly against the body and cover the intended areas.
2. Use the straps to adjust the protector’s position to the user’s height.
3. Secure the protector around the body using the elastic hook-and-loop strap so that it stays firmly in place.
4. Check that all fasteners are properly secured and that the protector remains in the correct position during movement.

The protector must always be correctly fitted and secured to provide its declared level of protection.

8. Care, maintenance and storage

After use, allow the protector to dry in a well-ventilated place at room temperature. Do not tumble-dry it or dry it near radiators or other heat sources.

If dirty, remove dirt with a damp cloth. Do not wash the protector under running water, use chemicals to clean it or dye the product.

Store the protector in a dry, well-ventilated place. Protect it from direct sunlight, prolonged exposure to extreme temperatures, excessive loads and deformation. Disinfect it using a spray intended for sports and motorcycle equipment.

Check the product regularly. If it is damaged, deformed or you have doubts about its protective properties, stop using it and replace it.

9. Disposal

At the end of its service life, dispose of the product in accordance with local waste-management regulations.

Keep the packaging out of reach of children to prevent the risk of suffocation.

10. Declaration of conformity
